

In September 2016, the Fresno COG Policy Board approved the Measure "C" New Technology Multidisciplinary Advisory Group funding recommendations below. In December 2016, the Fresno County Transportation Authority also approved the funding recommendations. Only Fresno COG and its member agencies are eligible to receive New Technology funding, therefore resolutions are needed to authorize Fresno COG to partner with California State University, Fresno Foundation and Fresno County Rural Transit Agency for their New Technology projects.

| Project Name | Partnering Agency | Funding Ask | Funding Recommendation | Funding |
|---|-----------------------------|---------------------------|------------------------|---|
| Sustainable Aviation Project | Cities of Mendota & Reedley | \$1,071,348 | \$1,071,348 | Complete funding request |
