

Caltrans Update

Fresno Council of Governments

CALTRANS MISSION:

Provide a safe, sustainable, integrated and efficient transportation system to enhance California's economy and livability

California Continues to Climb in Ranking of Bike-friendly States

California continued its climb up the ranks of bike-friendly states, moving up to 8th in the nation according to the annual list compiled by the League of American Bicyclists.

With the release of its 2015 rankings, the League's assessment of California shows continued improvement for the Golden State, which was rated at 9th and 19th in 2014 and 2013, respectively. Ratings were based on overall scores added up from five categories: legislation/enforcement, policies/programs, infrastructure/funding, education/encouragement and evaluation/planning.

The rankings come on the heels of a multi-tiered effort by Caltrans to increase options for bicyclists as part of its approach to multimodal transportation.

"Bicycling is fast becoming a key component of California's transportation system, and we'll continue to make improvements to keep it accessible and safe for the millions of cyclists that use it every day," said Caltrans Director Malcolm Dougherty. "These rankings reflect our continued commitment to improve our cycling facilities and encourage active transportation."

In its recently released Strategic Plan, Caltrans included a goal of tripling the frequency of cycling. Caltrans also will add bike-friendly features to streets as part of its Complete Streets Implementation Action Plan.

2014 was a benchmark year for California and bicyclists, as well. The California Transportation Commission allocated more than \$360 million for locally administered Active Transportation Program (ATP) projects, with 2015 ATP grants expected to total even more in direct funding for local projects. In 2014, Caltrans also officially endorsed the street design guidelines of the North American City Transportation Official, which includes augmented features for bicyclists and pedestrians.

CALTRANS AWARDS \$9.8 MILLION TO LOCAL CITIES AND AGENCIES TO SUPPORT THEIR SUSTAINABLE TRANSPORTATION PLANNING EFFORTS

Caltrans has awarded \$9.8 million in Sustainable Transportation Planning Grants to support cities, counties, agencies and transit operators in their efforts to integrate transit, bicycling and walking into their local transportation plans.

These grants could include planning for mobility, accessibility and connectivity of multi-modal options such as light rail, bus service, biking or walking. Of these grants, \$1.5 million will fund partnership efforts to solve statewide or interregional transportation issues in the state highway system.

"At Caltrans, we are supporting sustainability at every stage, from planning to project construction to funding for bike and walking paths," said Director Malcolm Dougherty. "Together, this funding will lead to more livable and economically vibrant communities across California."

This comes after the Federal Railroad Administration awarded Caltrans more than \$5 million to expand passenger rail planning efforts for its popular Pacific Surfliner route in San Diego County, and to upgrade existing Amtrak service in Riverside County.

Sustainable transportation planning projects that will be funded by this grant identify and address areas that lack viable transit or multimodal options, actively engage stakeholder collaboration and public engagement in their planning efforts, and ultimately help Caltrans achieve its mission of providing a safe, sustainable, integrated and efficient transportation system to enhance California's economy and livability.

These grants may lead to active transportation projects that encourage biking and walking. Last year, the California Transportation Commission allocated more than \$360 million for locally administered Active Transportation Program projects.

Grant recipients include cities, counties, Native American tribal governments, metropolitan and regional transportation agencies and transit agencies. The grants were awarded in April, pending budget approval.

Grant recipients located in Caltrans District 6 are listed in the table on the next page.

For a complete list of grant recipients, visit <http://www.dot.ca.gov/hq/tpp/documents/AwardList.pdf>.

CALTRANS AWARDS \$9.8 MILLION TO LOCAL CITIES AND AGENCIES TO SUPPORT THEIR SUSTAINABLE TRANSPORTATION PLANNING EFFORTS, CONT.

| Grant Type | Grantee Sub-recipient | County | Project Title | Project Description |
|-------------------------|--|--------|---|--|
| Sustainable Communities | City of Coalinga | Fresno | Coalinga Citywide Vehicular Traffic Calming and Safety Enhancement Plan | This planning project is to develop a Citywide Vehicular Traffic Calming and Safety Enhancement Plan. The plan will address challenging conditions such as: excessive speeds due to the presence of two state highways that bisect the city; irregular intersections; and, accident prone areas. The proposed plan will include data collection and analysis, identification of the most cost effective countermeasures, community input, and development of a prioritized implementation plan. The plan will be a critical first step in helping Coalinga prepare for projected growth and creating a safer, multi-modal, transportation system. |
| Sustainable Communities | Kings County | Kings | Smart Growth State Route 41 Corridor Improvement Plan | The planning project will study alternatives for improving traffic flow, safety, capacity, and multi-modal travel. State Route (SR) 41, at the Interstate 5 interchange, is an important logistics hub and truck transfer station because of its location halfway between Los Angeles and San Francisco. At the project area, the SR 41 corridor bisects Kettleman City, a small, severely disadvantaged unincorporated community. The current infrastructure is inadequate for existing truck transfer activity, tourist travel to the Central Coast, and future growth. Community input will be key to the planning process. |
| Sustainable Communities | Tulare County Association of Governments | Tulare | Bike and Stride Outreach Program | The Bike and Stride program aims to evaluate, coordinate, and enhance our existing bike and pedestrian outreach efforts to groups that are not normally associated with our current outreach. This program will continue to enhance the success of our existing outreach in the county with our local partners, public, and transit providers. This program would better serve our residents, ensuring that future transportation investments would better reflect the needs of the county. |
| Sustainable Communities | Tule River Tribe | Tulare | A Comprehensive Master Plan for Tule River Native Community | The Tribe will further its long range commitment to land stewardship and community development by creating a vision and implementation plan to allow for long-term natural resource management, economic development, and sustainable growth, while maintaining its role as the Native American cultural leader for tribes throughout the Central San Joaquin Valley. The Tribe, in collaboration with a selected community planning consultant, will prepare a sustainable transportation plan and a GIS mapping system for the entire study area. This first ever plan will look to support the historical and cultural assets while setting the stage for population and employment growth well into the future. The master plan will include an assessment of existing roadways, safety elements and alternative access roads. |

NEARLY \$223 MILLION IN NEW TRANSPORTATION FUNDING APPROVED FOR STATE'S TRANSPORTATION SYSTEM

Continuing the push to rebuild and maintain California's infrastructure, the California Transportation Commission (CTC) has allocated nearly \$223 million to 109 transportation projects that will alleviate traffic delays, repair aging roads and bridges and encourage bicycling and walking.

Thirty eight biking and pedestrian projects throughout the state will receive \$10.3 million in allocations from the Active Transportation Program.

"Allocations like those made today help Caltrans continue to invest in, maintain and modernize California's transportation system," said Caltrans Director Malcolm Dougherty.

"Each of these projects is an opportunity to improve safety, access and mobility for all travelers in California, whether you choose to travel via car, bike or transit."

Active transportation projects funded include:

Fresno: \$40,000; to Fresno County COG to construct new ADA Path on Grove and Jensen Avenue from Ninth Street to Cedar Avenue that will include new and retrofitting curbs/ramps.

Fresno: \$32,000; to Fresno County COG to install a new sidewalk along Dunlap Road from Dunlap Elementary to Dunlap Leadership Academy including the installation of an in-pavement crosswalk lighting system.

Fresno: \$30,000; to Fresno County COG to install a new walkway on the north side of Mt. Whitney Avenue from Grantland Avenue to Garfield Avenue to provide pedestrians walking and/or biking along Mt. Whitney a safe dedicated path.

Fresno: \$40,000; to Fresno County COG to construct an ADA compliant path for students who walk on Hazel Avenue to Mt. Whitney Avenue to Stathem Avenue.

City of Kerman: \$26,000; to Fresno County COG to construct Pedestrian Safety Improvements at various locations including new curb and gutter, sidewalks and curb ramps.

City of Mendota: \$25,000; to Fresno County COG to construct Mendota Elementary Pedestrian Improvements to improve pedestrian safety and facilities at high traffic locations near the new Mendota Elementary School.

The newly allocated funding also includes \$167.2 million from the State Highway Operation and Protection Program for 41 projects that will maintain and preserve the investment in the state highway system and its supporting infrastructure. These capital improvements consist of projects covering maintenance, pavement repair and rehabilitation, safety improvements and upgrades to bridges throughout the state.

"Preventative maintenance is the most cost-effective means of protecting the state's infrastructure investment," continued Director Dougherty. "We adopted a 'fix it first' strategy because for every \$1 spent

NEARLY \$223 MILLION IN NEW TRANSPORTATION FUNDING APPROVED FOR STATE'S TRANSPORTATION SYSTEM , CONTINUED

on preventative maintenance, we can save taxpayers up to \$14 in monies that would have been spent on more expensive and extensive repairs.”

The allocations also include \$2.2 million from Proposition 1B, a transportation bond approved by voters in 2006. To date, more than \$18 billion in Proposition 1B funds have been put to work statewide for transportation purposes.

The remaining \$43 million in allocations came from various state and federal transportation accounts.

Among the projects that received funding allocations today were:

Fresno: \$2.2 million; in Fresno, Kings, and Tulare Counties on Routes 5, 41, 168, 180 and 198 at various locations which will replace the existing overhead signs and roadside signs to improve highway efficiency and safety for vehicle traffic.

Fresno: \$362,000; in Fresno, Kern, Madera and Tulare counties at various intersections in order to upgrade signalized intersections to include Accessible Pedestrian System (APS) push buttons and countdown pedestrian heads to reduce the number and severity of collisions.

Bakersfield: \$8 million; repair joint seals, paint steel elements and upgrade/reconstruct guardrails at four bridges in Bakersfield on State Route 204 to extend the bridge service life.

Bakersfield: \$4.9 million; overlay 31.2 miles of State Route 58 near Boron from west of Boron overcrossing to the San Bernardino County line with rubberized hot mix asphalt, install shoulder backing and replacement of guardrail at identified location to extend pavement service life and improve ride safety and quality.

Bakersfield: \$6.8 million; on State Route 119, near Dustin Acres, From Elk Hills Road to Tupman Road construct truck climbing lanes to reduce congestion and improve highway operations and mobility.

Bakersfield: \$6.1 million; on State Route 395 near Johannesburg, from the San Bernardino County line to Route 178; rehabilitate 49.5 lane miles of pavement by overlaying rubberized hot mix asphalt on the existing pavement to extend pavement service life and improve ride quality.

Bakersfield: \$1.9 million; on Routes 5, 58, 99, and 178 at various locations; replace the existing overhead and roadside sign panels with high retro-reflective sheeting to improve highway efficiency and safety for vehicle traffic.

*For more information about all projects that received allocations, please see:
http://dot.ca.gov/dist6/pressrelease/2015/ctc_may_projects.pdf*

CALTRANS RELEASES PLANS DETAILING CRITICAL INFRASTRUCTURE FUNDING SHORTFALLS FACING CALIFORNIA'S HIGHWAY SYSTEM

According to projections detailed in plans released May 8, 2015, Caltrans will need approximately \$80 billion over the next ten years to address current and future needs of the state highway system—a projected funding shortfall of nearly \$60 billion with available revenue.

The 2015 Ten-Year State Highway Operation and Protection Program (SHOPP) Plan outlines a strategy for improving roads, addressing major rehabilitation work on the state highway system and supporting Caltrans' sustainability goal through projects that bring long-lasting and smart mobility improvements. The plan identifies approximately \$8 billion annually needed to fund these necessary improvements and preventative maintenance activities over the next ten years. However, in light of a shortfall of approximately \$5.7 billion per year in funding, the plan warns that the state highway system will deteriorate and necessitate much more expensive remedies in the future.

"This funding shortfall presents a serious challenge to Caltrans and this state's transportation system," said Caltrans Director Malcolm Dougherty. "At Caltrans, we have a "fix it first" mentality, putting transportation dollars where they can be most cost-effective: on preventative maintenance to our existing infrastructure. Our maintenance dollars can only go so far, however, and California is facing much more expensive repairs to its infrastructure in the future due to a growing backlog of necessary repairs.

Excise taxes on gasoline and diesel fuel are the primary revenue source for Caltrans, funding the maintenance and operation of the state highway system as well as the administration of the department. These revenues are declining as a result of reduced fuel consumption due to more energy-efficient vehicles and increased alternative fuel use. California is currently evaluating funding alternatives which may include increasing the gas tax or registration fees, or switching to a mileage-based fee structure.

The State Highway Operation and Protection Program primarily funds rehabilitation projects and capital improvements along the state highway system that do not add capacity to the system. Projects largely involve pavement and structure/bridge rehabilitation, but also encompass safety and some types of mobility improvements as well as emergency repair. The SHOPP is based on a ten-year plan (today's released document) that identifies performance goal-based needs over a ten-year period, with the plan updated every two years.

Caltrans' Maintenance Program also preserves California's transportation infrastructure through preventative maintenance and repair of the state highway system. Proper maintenance, as detailed in the 2015 Five-Year Maintenance Plan (also released today), can reduce the amount of the more expensive rehabilitation work done by the SHOPP.

Caltrans constructs, operates and maintains more than 50,000 lane miles of the State Highway System, the core of California's complex, multi-modal transportation system. This includes more than 13,000 bridges and structures, 30,000 acres of roadside landscaping, 205,000 culverts and drainage facilities and 87 roadside rest areas. The department's transportation infrastructure also includes maintenance stations, equipment shops, traffic management centers, transportation materials laboratories and testing facilities and office buildings. Much of this system is over half a century old, built in the 1950s through early 1970s, to serve California's growing population and expanding economy.

The 2015 Ten-Year SHOPP Plan can be accessed at http://www.dot.ca.gov/docs/2015_Ten-Year_SHOPP.pdf and the 2015 Five-Year Maintenance Plan at http://www.dot.ca.gov/docs/2015_Five-Year_Maintenance_Plan.pdf.

UPDATE ON FRESNO COUNTY PROJECTS

Fre-Tul Sign Panel Upgrade: Upgrade sign panels in Fresno County on Routes 41, 168, 180, and in Tulare County on Route 198. Funding: SHOPP. Funding was approved at the May CTC meeting. Emad Abi-Rached, Project Manager, (559) 243-3460.

California Tiger Salamander Mitigation Bank: Develop a mitigation bank for the California Tiger Salamander in Districts 6 and 10 that will serve as mitigation for future Caltrans projects in various counties and locations. Funding: SHOPP. PID Initiated February 2015. Judy Aguilar-Luna, Project Manager, (559) 243-3457.

Fresno Co. Drought Relief: Repair irrigation systems and replace booster pumps in Fresno County at various locations. Funding: SHOPP. Ready to List achieved March 2015. Victor Shaw, Project Manager, (559) 243-3441.

Signal Countdown/ Accessible Pedestrian Signals: Install signal countdown heads/ accessible pedestrian signs in Fresno, Kern, Kings, Madera and Tulare at various locations. Funding: SHOPP. Ready to advertise June 2015; award contract late summer 2015. Curt Hutton, Project Manager, (559) 243-3445.

HST - Bakersfield to Fresno Segment: High Speed Train System from the City of Bakers-

field to south of Clinton Avenue in the City of Fresno. Funding: HSRA (ARRA & BOND). Begin construction fall 2014; end construction summer 2018. Garth Fernandez, Project Manager, (559) 243-8012.

Fre/Mad Wire Theft: In Fresno and Madera Counties at various locations. Funding: SHOPP. Construction complete. Anand Kapoor, Project Manager, (559)243-3588.

Fresno ITS Freeway Crossings: City of Fresno will design and construct an Intelligent Transportation System (ITS) project to help synchronize traffic signals along freeway crossings. Funding: Minor A, CMAQ. Ready to List summer 2016; advertise late 2016. Anand Kapoor, Project Manager, (559) 243-3588.

I-5 Cable Barrier: Install high tension cable barrier on I-5 from PM 21.5 in Kings County to PM 2.25 in Fresno County and from the El Dorado Avenue overcrossing to the I-5/SR 198 separation. Funding: SHOPP. Ready to List spring 2016. Scott Friesen, Project Manager, (559) 243-3436.

Panoche Overlay: Pavement Rehabilitation on I-5 from south of the Panoche Road overcrossing to north of the Russell Road overcrossing. Funding: SHOPP. Project awarded to Security Paving Company, Inc. and is in construction. Chris Gardner,

Project Manager, (559) 243-3444.

Seismic Restoration-Var: Seismic restoration of SRs 33, 41, 43, and 233/152 in Fresno, Kings, and Madera Counties. Funding: SHOPP. Ready to list summer 2016; award late 2016; begin construction early 2017; end construction late 2017. Jeannie Wiley, Project Manager, (559) 243-8051.

Mendota Intersection Improvement: Construct a roundabout in Fresno County in the City of Mendota, on SR 33 at SR 180. Funding: CMAQ and Measure C. Implementing Agency-City of Mendota. Ready to list summer 2016. Chris Gardner, Project Manager, (559) 243-3444.

FRE HI FRICTION: Install high friction surface treatment on freeway ramps at various locations in Fresno on Routes 41, 99, 168, and 180. Funding: SHOPP. Ready to List spring 2016. Jeannie Wiley, Project Manager, (559) 243-8051.

FRE 41 CAPM: Pavement preservation on SR 41 north of the City of Lemoore from Harlan Avenue to Elkhorn Avenue. Funding: SHOPP. Advertised September 2014; project in winter suspension; complete construction 2015. Jeannie Wiley, Project Manager, (559) 243-8051.

Ventura Viaduct Deck Seal: On SR 41, near Fresno, 1.3 miles

UPDATE ON FRESNO COUNTY PROJECTS, CONTINUED

north of the SR 41/99 Separation. Funding: SHOPP. In construction; end construction late 2015. Chris Gardner, Project Manager, (559) 243-3444.

Ramp Improvement at SR41 at various locations and at SR180: Install concrete barriers on SR 41 and SR 180 at ramps at Abby Avenue, McKinley Avenue, Shields Avenue, Shaw Avenue, Herndon Avenue, and Friant Avenue in the City of Fresno. Funding: SHOPP. Construction complete. Judy Aguilar-Luna, Project Manager, (559) 243-3457.

McKinley 41 NB Ramp Guardrail: Replace MBGR with concrete guardrail on SR 41 northbound on-ramp from McKinley Avenue. Funding: Minor A. Begin construction summer 2015; end construction fall 2015. Chris Gardner, Project Manager, (559) 243-3444.

Ramp Meter Replacement Planting: Replacement planting on SR 41 between Ashlan Avenue overcrossing to Herndon Avenue undercrossing in the City of Fresno. Funding: SHOPP. In construction and on schedule; complete construction summer 2016. Anand Kapoor, Project Manager, (559) 243-3588.

FRE/MAD Roadside Safety: Roadside safety improvements in Fresno and Madera Counties on SR 41 at various locations. Funding: SHOPP. Ready to list

spring 2016. Jeannie Wiley, Project Manager, (559) 243-8051.

41 Seismic Retrofit: Bridge seismic retrofit on old Route 41 Bridge between Madera County and Fresno County near the Community of Friant. Funding: SHOPP. Ready to list spring 2016; end construction late 2017. Anand Kapoor, Project Manager, (559) 243-33588.

Tulare Madera VDS: Install Vehicle Detection systems on SR 99 in Fresno County from PM 18.7 to PM 22.5; in Tulare County from PM 0.1 to PM 28.0; in Madera County from PM 16.4 to PM 26.5. Funding: Minor A. Ready to List February 2016; advertise April 2016; award contract summer 2016. Jeannie Wiley, Project Manager, (559) 243-8051.

Olive Avenue Signals: At SR 99/Olive on- and off-ramps in the City of Fresno; ramp metering included. Funding Minor A. In construction. Steven Milton, Project Manager, (559) 243-3451.

SR 99 Realignment for HST: Realignment of SR 99 to accommodate the High Speed Train System from south of Clinton Avenue in the City of Fresno to Ashlan Ave. Funding: HSRA (ARRA & BOND). Begin construction fall 2015. Garth Fernandez, Project Manager, (559) 243-8012.

San Joaquin River 6-Lane: Replace the SR 99/San Joaquin River Bridge and widen SR 99 from Grantland Avenue overcrossing in the City of Fresno to north of the Avenue 7 overcrossing in Madera County. Funding: Prop 1B Bond. In construction; construction complete summer 2015. The new lanes will open to traffic May/June 2015. Jim Bane, Project Manager, (559) 243-3469.

Veterans Blvd. Interchange: New interchange on SR 99 between Herndon Avenue and Shaw Avenue on Veterans Boulevard in the City of Fresno. Funding: Measure, local. Project design progressing. Begin construction 2016 pending funding approval. Jim Bane (559) 243-3469.

Fre 168/180 Wire Theft: In Fresno and Madera Counties at various locations. Funding: SHOPP. Project awarded on 11/19/2013. Construction complete. Anand Kapoor, Project Manager, (559)243-3588.

168 Median Barrier: Construct median barrier on SR 168 in the City of Clovis between the Herndon Avenue undercrossing to the Clovis Avenue undercrossing. Funding: SHOPP. Ready to list spring 2015; construction to start late summer of 2015. Jeannie Wiley, Project Manager, (559) 243-8051.

Prather Curve Correction: Realign the curve on SR 168 and

UPDATE ON FRESNO COUNTY PROJECTS, CONTINUED

Auberry Road near the community of Prather. Funding: SHOPP. Advertise spring 2015; construction to start late summer 2015. Jeannie Wiley, Project Manager, (559) 243-8051.

Auberry Road Roundabout: Intersection improvements at the SR 168/Auberry Road intersection near the community of Prather. Funding: SHOPP. Ready to list fall 2015; advertise early 2016; begin construction spring 2016; complete construction 2016. Jeannie Wiley, Project Manager, (559) 243-8051.

Munger Point: Enhance Maynard Munger vista point on SR 168 east of the community of Prather. Funding: STIP, TE. Project is being redesigned since the first advertisement. The project could not be awarded as all bids were greater than the Caltrans cost for the project. Construction to start summer 2015. Jeannie Wiley, Project Manager, (559) 243-8051.

180 West Freeway Landscape: Highway planning on SR 180 in and near the City of Fresno from west of Brawley Avenue to Teilman Avenue. Funding: STIP. Ready to list spring 2016; end construction fall 2020. Chris Gardner, Project Manager, (559) 243-3444.

180 Braided Ramps Landscaping Project: Freeway landscaping in the City of Fresno from west of the Route 180S/Route

41 separation to east of the Peach Avenue overcrossing. Funding: Measure. Project advertised in February 2015; construction should begin summer 2015. Neil Bretz, Project Manager, (559) 243-3465.

180 Freeway Landscape: Highway planting and install irrigation on SR 180 in the City of Fresno between west of Clovis Avenue overcrossing to east of Temperance Avenue. Funding: RIP. CTC approved funding March 2012. Contract approved in September 2012; in construction; end construction winter 2016. Due to drought conditions the planting phase start date was delayed until early January 2015. Planting completed in April 2015. Three year plant establishment began in May 2015. Neil Bretz, Project Manager, (559) 243-3465.

Kings Canyon Expressway Segment 2: SR 180 from Academy Avenue to Smith Road near the community of Centerville. Funding: Measure, Prop 1B Bond. Project was awarded April 23, 2013; construction began August 2013; construction complete October 2014. Neil Bretz, Project Manager, (559) 243-3465.

Kings Canyon Expressway Segment 3: SR 180 from Smith Rd. to Alta Main Canal near the community of Centerville. Funding: RIP, Measure. Ready to list scheduled for June 2015; advertise fall 2015; award con-

tract fall 2015; begin construction winter 2015 (pending funding availability). In design phase. Neil Bretz, Project Manager, (559) 243-3465.

Cali Aqueduct Deck Replacement: Replace the California Aqueduct bridge deck on SR 198 near the City of Huron. Funding: SHOPP. Ready to list late 2015; advertise early 2016; begin construction early 2016; complete construction spring 2016. Jeannie Wiley, Project Manager, (559) 243-8051.

The California Department of Transportation (Caltrans) District 6 is headquartered in Fresno. This geographically diverse district is the second largest of the 12 Districts statewide, stretching from the southernmost part of Yosemite National Park in the north to the Mojave Desert. It includes Madera, Fresno, Tulare, Kings and Kern counties. Interstate 5 and State Route 99 run the length of District 6, serving as the main north-south arteries for not just the Central Valley, but for the entire state as well.

Visit District 6 on the web at www.dot.ca.gov/dist6/
