Performance Measures

March 22, 2017

How Scenarios Measure Up

- Scenario A:
"Investing in Existing Communities"
- Scenario B:
"Transit-Oriented Development"
- Scenario C:
"Maintaining Existing Transportation Facilities"
- Scenario D:
"Active Transportation"

Performance Measures

- Performance-based Planning
- SCS Planning Process
 - Six Focus Groups
 - 38 indicators in total
 - Top 10 indicators reflect the value of the community, and calculated for ALL scenarios
 - All measures calculated for the preferred scenario

3

Sustainable Community Strategy

- Greenhouse gas reduction
- Criteria pollutants emissions

4

Top 10 Performance Indicators

- Greenhouse gas reduction
- Criteria pollutants emissions
- Transit-oriented development
- Residential density
- Housing mix
- Compact development *
- Vehicle Miles Traveled (VMT)
- Active transportation and transit travel
- Land consumption *
- Important farmland

5

Environmental Justice

- EJ accessibility

Health Indicator (NEW)

- Premature deaths

6

New Top 10 List

- Greenhouse gas reduction
- Criteria pollutants emissions
- Transit-oriented development
- Residential density
- Housing mix
- Vehicle Miles Traveled (VMT)
- Active transportation and transit travel
- Important farmland
- EJ accessibility
- Premature deaths
