SUBJECT: Fiscal Year 2020-21 Overall Work Program Recommendations:

Staff recommends accept, for review, the FY 2020-21 Overall Work Program, totaling $21,495,727.

Summary:

The Fiscal Year (FY) 2020-21 Overall Work Program (OWP), totaling $21,495,727, is submitted for adoption. The proposed budget increased $1,374,586 from last year. Operational revenues remain intact, reserves are adequate, and the agency continues to operate within the bounds of prudent management.

The increase is a net number spread over a large variety of programs discussed below; however, a significant factor affecting this increase is simply that the budget contains fully funded multi-year projects and as these ‘one-time’ funds are spent they are not reflected in subsequent year’s budgets. Generally, operating expenses are not affected this way.

Federal revenues decreased 19% ($1,137,460). FTA 5304 decreased $269,372 reflecting progress on the Better Blackstone Challenge. Projects funded by FTA Section 5310 Enhanced Mobility of Seniors & Individuals with Disabilities program decreased $494,705 reflecting programmed bus procurements for transit agencies while FTA Section 5316 & FTA Section 5317 went down $156,281 as grants funded by the discontinued JARC and New Freedom program are closed out. Federal planning funds decreased $349,461 as carry over FHWA PL and FTA 5303 balances are spent down.

State revenues increased 250% ($4,463,939). The largest portion of this increase centers around the State Regional Early Action Plan (REAP) which provides $4,749,860 to Fresno and Central Valley MPOs to develop a valley wide plan for housing. Also STIP planning funds ($399,000) were reinstated in the 2018 STIP to fund Fresno COG’s stewardship of the multi-million dollar Federal Aid projects allocated to local agencies in Fresno County. State Highway account, SPR, and RMRA funding decreased, a total decrease of $694,316 reflecting progress on programmed projects.
Local revenues decreased 16% ($1,951,713), reflecting draw downs on Measure C funded projects such as significant progress in the design phase of the Golden State corridor, Fresno State Transportation Institute, and FCRTA Electric Vehicle purchases.

**Staffing & Benefits:**
There are no new Fresno COG planning positions included in this year’s proposed budget. FCRTA reclassified an Administrative Assistant position to Operations Manager which is reflected in this budget. Contingencies are carried for merit based salary increases as well as contingencies for anticipated health insurance increases. The overall proposed budget for salaries increased by 5% and benefits by 8%.

**Expense Account Format:**

Expense items are broken into two categories. General Indirect Overhead expenses are items which are attributable to the overall administration of the agency and not identifiable specifically to grant programs, such as telephone, insurance, copier lease, and rent. These Indirect expenses are combined into a Caltrans approved Indirect Cost Allocation Proposal and distributed equally amongst all funding sources. Expenses charged directly to specific grants and programs are identified as Other Direct Cost. In some instances there may appear to be duplication of costs such as in the Indirect Account for Printing and the Other Direct Cost account for Supplies/Printing; however, the difference in how they are administered is in the general nature of overhead expenses as opposed to the project specific nature of Other Direct Costs. Detail is provided for Other Direct Cost (Other Project Detail) showing the Work Element, Activity, and funding sources.

**Overhead Accounts:**

Overhead accounts increased by 4% ($18,793 total) reflecting increases in Computer supplies ($5,000), building maintenance ($1,000), and travel ($11,500). Our office lease also was adjusted up $8,937 per our existing contract. $7,644 in Audit expense was reallocated to a direct program.

**Direct Cost Expenses:**

**Consulting**
The overall consulting budget is $4.7 million, which is a decrease of $876,848 corresponding to projects associated with revenue reductions discussed above regarding multi-year projects. New consulting projects are discussed below under the Work Element discussion.
