

2022 RTP/SCS Strategies
Draft 11/4/2020

Land Use

- Limit growth footprint
- Support efficient land uses and livable communities
- Encourage equitable redevelopment
- Provide a range of housing options across different income levels
- Conserve resource land

Transportation

- Maintain existing streets and roads
- Enhance operational efficiency and TDM strategies
- Improve bike and pedestrian infrastructure
- Expand roadway capacity
- Improve transit and shared mobility
- Innovate and modernize travel and infrastructure
- Improve traffic safety
- Improve intra-modal accessibility and connectivity
- Improve transportation equity
- Decrease congestion

Other / Co-Benefits

- Encourage shifts away from SOV
- Increase climate resiliency
- Improve air quality
- Support work-from-home
- Improve economic, environmental, and public health outcomes for disadvantaged communities
